to Munich. In describing this incident to KROMIADI, ANTONOV said bitterly that he would walk to Brussels if he could but meet his daughter there.

- B. Mikhail ANTONOV also has told AEFANFARE that on the 25th of November Georgiy confessed to Mikhail in confidence that the RIS is hunting and pressuring him. He added no further details. He did admit, however, that he had received a letter from Ivan OVCHINNIKOV since the latter's repatriation. Reading aloud from portions of OVCHINNIKOV's letter, ANTONOV related that both ILYINSKY and OVCHINNIKOV had been well received in Berlin and had no fears for their future. OVCHINNIKOV lamented the fact that Subject was remaining in the West.
- C. Subject explained to AEFANFARE during another personal conversation on 2 December 1958 that he had received a letter on 17 September 1958 allegedly from a Soviet electro-engineer at the Brussels Fair. The author of this letter is supposed to have studied with ANTONOV's daughter at the Voronezh Institute. The letter asked ANTONOV to come to Brussels and enclosed a picture of Subject's daughter. ANTONOV avows that he destroyed the letter.
- D. On 18 December AEFANFARE reported to his Munich Base case officer that it was entirely possible that ANTONOV would redefect at almost any time. Subject was extremely depressed, according to AEFANFARE, and he seemed to be particularly lonesome for his daughter in the Soviet Union. Subject gave AEFANFARE the impression of an old Soviet emigre who felt there was no longer anything left for him in the West during the relatively few remaining years of his life span. Subject spoke to AEFANFARE in hopeful terms about the treatment that might be accorded him should he return to the Soviet Union. He reasoned that the terms of the Soviet Amnesty would extend to his case.
- 5. Another factor which may be contributing to Subject's depression is the fact that he has been losing prestige and stature among members of the emigration and particularly among those who belong to the SBONR organization. He probably fears that he will not be re-elected as Chairman because of the deficiencies of his leadership. These deficiencies may largely be ascribed to ANTONOV's excessive drinking.
- 6. Munich Base has no intention at the present time of becoming involved in any LCIMPROVE type operation with Subject because of the many complexities in this case and because of the inherent instability in the man himself. Through I that ANTONOV is fretting Tor RNOBSERVE with this matter is that Subject has confided to \_\_\_or RNOBSERVE. bolster him against redefection and possibly to offer him some news tasks to perform which might get him out of his present rut.
- 7. Besides the above reports which came to our attention, RNOBSERVE has written a memorandum on this same subject. We are attaching this memorandum under separate cover for your information.

SUBJECT:

FROM:

MEMORANDUM TO:

V. Larionov, A. Petros, I. Repnikov and Personal Observations.

Since Antdnov's visit to the Brussels World's Fair, consistent rumors have krept up in emigre circles concerning his alleged contacts and correspondence with the Soviets.

The following unverified rumers have come to our attention:

1st - Visit by "Soviet agent" late this summer or early fall.

2nd - Correspondence with Maj. Gen. Vishnevsky. 3rd - Contacts with Lt. Ovchinnikov.

Rumer No. | 1 deals with a visit to Antonov's apartment (Auenstr. 21) by a "Soviet agent" named Dembrovsky (?). This person allegedly talked to Antonov at length and turned over to him letters from his long lost daughter.

The second rumor is based on remarks made by Col. Antonov in front of several of his colleagues in September or October (Mikhail Antonov, Alexei Petros, etc.). It is said that Antonov, under the influence of alcohol, told them - "Well, nobody gives a damn about me here, but Gen. Vishnevsky writes - 'Esteemed Giorgiy Iliyitch, we regard you highly?". (approximate quotation)

It is further rumored that a day or two before his departure for East Berlin, Ovchinnikov visited Antonov's apartment. We knew previously that Ovchinnikov and Antonov, while not particularly close, engaged in joint drinking bouts and common criticism of the Germans, Americans and TSOPE.

Now a few personal observations. Antonov and his landlady (also mistress), Mrs. Berta Gegenfuertner, were invited by undersigned for Thanksgiving dinner. Antonov appeared unusually nervous and ill at ease. He showed me a photograph of his daughter, a chemical engineer, who resides in Leningrad. The pircture shows a young woman about thirty with a child about two years old (hard to identify whether boy or girl). Antonov gave no details as to identity of his son-in-law. Interesting in this connection is the remark made by Mrs. Gegenfuertner: "Now he's found his family and he may return! By the way, he gets furious every time I mention his possible return to the USSR". (approximate quotation)

As to how the photograph reached him, Antonov gave a rather confused account. According to him it was mailed from Brussels, and enclosed in a letter written by one of "his daughter's former college friends", who somehow obtained Antonov's address in Germany (sic!). He also told me that he learned from the letter that his daughter visited the Brussels Fair this summer with a group of Soviet tourists. Antonov denies he met his daughter in Belgium. He concluded the conversation by saying that he

burned the letter received from Brussels and only kept his daughter's photograph.

At this time it is difficult to evaluate and verify the rumors concerning Antonov. However, we should bear in mind that he is already under pressure by the Soviets (daughter), and that he is an essentially weak person, a heavy drinker, and not adverse to females of questionable reputation.
